EDUCATION

Bachelor's Degree in Computer Engineering
Universitat Oberta de Catalunya
2013 - Present

Advanced Vocational Training in Software Development
C.E. Roca
2007 - 2009

Advanced Vocational Training in Systems Administration
C.E. Roca
2007 - 2009

Intermediate Vocational Training in IT Systems Operation
Escola Bemen 3
2005 - 2007

LANGUAGES

Spanish (Native)

Catalan (Native)

English (Professional, daily working language)

INTERESTS

AI and emerging technologies

Indoor climbing

Diving and snorkeling

Gaming

Cooking

PROFESSIONAL PROFILE

Software engineer with **10+ years** building and maintaining business-critical web applications in **healthcare, insurance and laboratory** environments.

Started as a Java full stack developer and now focus on **frontend with React** in **Kubernetes-based** platforms. I care about code that stays maintainable, solid testing and sharing knowledge with the team.

AI enthusiast: I closely follow the latest developments and like to put them into practice. This very CV was redesigned using AI-assisted tooling.

PROFESSIONAL EXPERIENCE

Software Engineer (Frontend)

Sep 2025 - Present

Capgemini for Roche

- Frontend development of a **platform application for laboratory instruments**.
- Build, deploy and test in a **Kubernetes** environment, using local **kind** clusters.

React · JavaScript · Kubernetes · kind · Git

Fullstack Software Engineer

2019 - Sep 2025

Stacks for Cegedim Santé

Part of the team that maintains and evolves *Mon Logiciel Médical*, a medical practice management application used by healthcare professionals.

- **Digital transformation:** led the introduction of **new technologies** (React) and the **performance optimisation** and refactoring of existing code.
- **Full stack ownership:** incident resolution and maintenance of frontend and backend (Java 7/8/17, Spring Boot, Hibernate, Oracle).
- **Quality:** code reviews, delivery standards and a focus on a smooth end-user experience.
- **Mentoring:** onboarding of new team members and promotion of good development practices.

React · Java 7/8/17 · Spring Boot · Hibernate · JavaScript · jQuery · JSP · REST · Oracle · Kubernetes · Git · Jenkins · Jira

Fullstack Java Developer

2017 - 2019

Sopra Steria for Allianz

- Developed web applications in **Scrum** teams and handled incident management and optimisation of existing systems.
- Created a **Maven archetype** that standardised and sped up the start of new projects.

Java 7 · Hibernate · Spring MVC · JavaScript · jQuery · JSP/JSTL · REST · SQL · Git · Jenkins · Jira

ADDITIONAL INFORMATION

Competencies - Responsibility, interpersonal skills, and public speaking.

Licenses - B and A2 driver's licenses.

Own vehicle - Car and motorcycle.

Fullstack Java Developer

2015 - 2017

Setting Consultoría for Banc de Sang i Teixits (Healthcare)

- Requirements analysis and solution design for the blood and tissue bank information systems.
- Backend with Struts, Spring and Hibernate; user interfaces with JSF, PrimeFaces and JavaScript.
- Performance improvements and issue resolution in existing applications.

Java 4/7 | Struts | Spring | Hibernate | JPA | JSF | PrimeFaces | JavaScript | PL/SQL | Oracle

IT Support and Systems Technician

2006 - 2015

Asepeyo (remote support), Uniland, Telefónica Soluciones, Consejo General del Poder Judicial and others

Remote and on-site support, helpdesk and network maintenance. The technical base that led me into software development.

SKILLS AND COMPETENCIES

Frontend	React, TypeScript, JavaScript, HTML5, CSS, jQuery
Backend	Java 8/17, Spring Boot, Spring MVC, Hibernate, REST
Data	Oracle, SQL, PL/SQL
Testing	Vitest
Cloud and DevOps	Kubernetes, kind, CI/CD, Jenkins, GitLab CI
Ways of working	Scrum, Code review, Mentoring, Git, Jira
